

Estimated annual cost burden:
\$18,300.²

Generally, electronics engineers perform the testing of amplifiers and receivers. Staff estimates a labor cost of \$12,900 for such testing (300 hours for testing × \$43 mean hourly wages). Staff assumes advertising or promotions managers prepare the disclosures contained in product brochures and manufacturer specification sheet and estimates a labor cost of \$5,400 (150 hours for disclosures × \$36 mean hourly wages). Accordingly, staff estimates the total labor costs associated with the Rule to be approximately \$18,300 per year (\$12,900 for testing + \$5,400 for disclosures).

The Rule imposes no capital or other non-labor costs because its requirements are incidental to testing and advertising done in the ordinary course of business.

Willard K. Tom,

Willard K. Tom, General Counsel.
