5/3/2017 Page i

A revised mortality data file for 2014 was released on April 3, 2017 to include corrections from Tennessee and Massachusetts affecting 125 records previously coded to Accidental discharge of firearms (W32-W34). After the revision, 50% of the changed records are now classified as Assault (homicide) by discharge of firearms (\*U01.4 and X93-X95); 42% as Intentional self-harm (suicide) by discharge of firearms (X72-X74); 4% as Discharge of firearms, undetermined intent (Y22-Y24); and the remaining 4% to various other causes. For more information, please see "Deaths: Final Data for 2014." This table was updated on May 3, 2017 to correct errors. The shaded areas in this table indicate the changes that were made.

Rank <sup>1</sup>	Cause of death (based on the <i>International Classification of Diseases,</i> Tenth Revision), race, sex, and age	Number	Percent of total deaths	Rate
